Check Migration Status

```
docker exec lpg_app php artisan migrate:status
```

Force Migrations

```
docker exec lpg_app php artisan migrate --force
```

Check api routes

```
docker exec lpg_app php artisan route:list | grep -i api
```

Run Database Seed

```
docker exec lpg_app php artisan db:seed
```

Clear Cache

```
docker exec lpg_app php artisan cache:clear && docker exec lpg_app php artisan config:clear
```

```
docker compose exec app php artisan tinker --execute="
```

```
$admin = \App\Models\User::create([
```

```
'name' => 'Admin User',
```

```
'email' => 'admin@lpg-tamale.com',
```

```
'password' => bcrypt('Chentiwuni1999@gmail.com'),
```

```
'role' => 'admin',
```

```
'is_active' => true
```

```
]);
```

```
echo 'Admin created: ' . $admin->email;
```

```
"
```
